## Knowledge Sharing WG

---

5/25/2023

### Welcome

---

In Attendance: SICPW, PDI, CCC

### Early Intervention Initiative

---

- EI Data Analysis
  - What information needs to be collected and shared?
  - What is the best way to collect information from families
    - **Host a EI forum**
      - **Invite EI experts to speak**
      - **Include panel discussion**
      - **Have smaller rooms available for more concentrated discussion**
      - **Have space available for video testimonies**
    - **Host smaller meetings / conversation sessions with families throughout the summer months- to gain information, testimonies, etc**
      - **Use information/testimonies when planning bigger forum event in the fall**
  - Reach out to providers and see what problems they are facing when it comes to meeting eligible families where they are at.
    - Why are some neighborhoods (the north shore) underserved vs other neighborhoods on the island?
  - All services can be provided virtually - OT, PT, speech, etc

- Very difficult to do within a virtual space
      - child's parents to be the one to give the service rather than the service provider
      - Could be a roadblock to growth
    - Were virtual options available pre-pandemic? What is the increase in virtual services?
      - Is there reimbursement for travel costs for service providers?
    - Partner with CBOs to create a middle ground space where providers can come and provide services for families
      - Libraries
      - **SICM**
    - EI ambassador through CCC
      - Information to be sent to SIA staff for further review
      - Will provide support over 2 year period
  - Let's Talk Early Intervention at Seamen's Society
    - How do we present the data that we have to families?
      - Overview presentation and facilitate discussion
      - Have packets with data to give out to families
      - Data walk
        - Key highlights
        - Posters with data
        - Parents will have post-its to write out their questions that will be discussed in a debrief afterwards
      - Share slides that we already have and pick and choose what data should be selected and in what way (presentation vs data walk)
        - Data for ZIP codes 10302, 10303, 10310, 10314
        - Include qualitative data in the presentation (quotes / information given during Beanstalk conversation)

## Closing

- 
- Next Meeting: June 29, 2023
