Welcome

Reviewing Updates for Policy Brief

- Updated EI Graph
 - Data pulled from LEICC
 - Percentages and raw numbers have been included
 - Clarity on definition on received general services
 - All services or some services
 - Wording on the graph might need to be changed or notated depending on the definition
 - Send email to BEI for clarity on definition
- Characterized Data Paragraph
 - Characterize progress statistics supplied by Marija
 - Do not use percentages - use terms like 'lower' or 'higher than' when describing the data
 - 'Some of the North Shore'

Additional Notes / Suggestions for the Policy Brief

- Have the text around the graphs focusing on the data the graphs are presenting
- Timeliness data – how can we show this data in graph form?
 - Should the citywide data be shown on the graph?
- Reference text on disparities
- Include average days chart (citywide) if there is space, as it is mentioned throughout the paper
