

MoMA

Create Ability

Hello! We are excited to share the upcoming dates for [Create Ability](#), a program welcoming individuals with intellectual and developmental disabilities, with their family and friends, to explore works on view and create artwork at the Museum of Modern Art. Each session, participants focus on a different theme during interactive activities in the galleries and classrooms.

This year, we will offer programs every month, with a session for kids and teens (ages 5-17) from 11am - 1pm and a session for adults (ages 18+) from 2pm - 4pm. We will send the registration announcement email for these programs one month before the program date at 10am.

Please reach out to AccessPrograms@moma.org or call Access Programs at (212) 408-6447 with any questions.
